INTRODUCTION

Background

The West Virginia Board of Regents was established in 1969 as the governing board for the state system of higher education. It was charged with the general determination, control, supervision, and management of all state colleges and universities. Essential to the successful management of any complex and diversified system is the availability of objective statistical data to aid in the formation of prudent management decisions. Since its creation the Board has worked to establish a comprehensive management information system designed to generate data concerning many aspects of West Virginia higher education. This report is an analysis of the degrees conferred during the 1975-76 academic year by institutions of higher education in West Virginia.

The Board is committed to the formulation of carefully designed new degree programs that are directly related to West Virginia manpower needs and employment opportunities. Likewise, the Board desires to avoid the unnecessary duplication of programs throughout the state, as well as the elimination of programs at the public institutions that attract few students or that involve excessive costs. The tables presented in this publication relating to degree programs represent only one type of analysis produced by the Board's management information system. The data have been reported without reference to any critical or judgmental standards.

Nationally accepted definitions and principles have been used in the collection and classification of data for this report. The West Virginia Board of Regents Form BOR DA-1, Degrees Awarded, 1975-76, was used for the collection of the data. The 29 academic areas of study utilized in this report (30 including the West Virginia Board of Regents' B.A. Degree) have been extracted from the U.S. Office of Education publication, "A Taxonomy of Instructional Programs in Higher Education." This taxonomy represents an effort to organize and record data concerning institutional programs in a consistent and meaningful manner. The data of this report are generally comparable to reports prepared by other states. Included in this report are all West Virginia public and private institutions of higher education.

HIGHLIGHTS — ALL INSTITUTIONS

During the 1975-76 academic year, 12,361 degrees were conferred by institutions of higher education in West Virginia. An absolute decrease of 28 total degrees conferred resulted in a 0.2 per cent decrease over the 12,389 total degrees conferred in 1974-75 (see Figure A).

Figure A presents the total degrees conferred for each of the past five academic years. Of the total degrees granted by all West Virginia institutions, public institutions awarded 80.9 per cent in 1971-72, 82.0 per cent in 1972-73, 83.7 per cent in 1973-74, 83.5 per cent in 1974-75, and 85.0 per cent in 1975-76.

HIGHLIGHTS — ALL INSTITUTIONS (Cont.)

The total degrees awarded at each degree level by all West Virginia colleges and universities for each of the past five academic years is presented in Figure B. When analyzing the increase in productiveness by level of degree for the 1975–76 academic year over 1974–75, the following increases are revealed: Associate degrees conferred increased 16.4 per cent (1,679 to 1,955); First Professional, 4.9 per cent (226 to 237); Master's, 12.8 per cent (1,968 to 2,219); and Doctor's, 10.0 per cent (110 to 121). Bachelor's decreased 6.9 per cent (8,406 to 7,829). Figure B also shows the proportion of degrees conferred by the public and private institutions for each degree level--private institutions in West Virginia offer only associate and bachelor's degree programs.

Figure C graphically presents the distribution of degrees by degree level. The total 7,829 bachelor's degrees conferred represented 63.3 per cent of all associate and higher degrees awarded during the 1975-76 academic year. The other degree levels, in descending order, were: Master's (2,219), 18.0 per cent; Associate (1,955), 15.8 per cent; First Professional (237), 1.9 per cent; and Doctor's (121), 1.0 per cent.

Of the total 12,361 degrees conferred during the 1975-76 academic year, 54.0 per cent (6,675) were awarded to males, while 46.0 per cent (5,686) were awarded to females. Figure D presents the total degrees awarded to males and females for each of the degree levels. Of the total 1,955 associate degrees awarded, females received 61.4 per cent (1,200) and males 38.6 per cent (755). Of the total 7,829 bachelor's degrees awarded, males received 56.8 per cent (4,446) and females 43.2 per cent (3,383). Males received 90.3 per cent (214) of the total 237 first professional degrees conferred, while females received 9.7 per cent (23). Of the 2,219 master's degrees conferred, 52.0 per cent (1,153) were awarded to males and 48.0 per cent (1,066) to females. Of the 121 doctor's degrees earned, 88.4 per cent (107) were awarded to males, while females received 11.6 per cent (14).

FIGURE D

For the 1975-76 academic year, the dominant academic areas of study for all degree levels were: education (31.3 per cent), business and management (11.8 per cent), health professions (5.5 per cent), health services and paramedical technologies (5.4 per cent), and public affairs and services (4.9 per cent). Figure E presents a breakdown of the total degrees awarded for each degree level by academic area. For the associate degree level, over 80 per cent of the degrees were awarded in four academic areas: health services and paramedical technologies (679), 34.7 per cent; business and commerce technologies (385), 19.7 per cent; interdisciplinary studies (287), 14.7 per cent; and mechanical and engineering technologies (218), 11.2 per cent. Three academic areas of study accounted for over 50 per cent of the degrees awarded at the bachelor's level. The three were: education (2,298), 29.4 per cent; business and management (1,247), 15.9 per cent; and social sciences (653), 8.3 per cent.

HIGHLIGHTS — PUBLIC INSTITUTIONS (Cont.)

Soon after its formation, the Board of Regents determined that the most critical higher educational need in West Virginia was an expanded program of career-technical and pre-baccalaureate (college transfer) offerings of two years or less duration. The Board has approved the establishment of new programs designed specifically to meet these needs. Although most of these degree programs have only been in operation for a short period of time, Figure G shows that the associate degree level recorded a 17.2 per cent increase over the past academic year. Of the total 1,587 associate degrees conferred by the public institutions, 1,401 or 88.3 per cent were career-technical associate degrees and 186 or 11.7 per cent were pre-baccalaureate associate degrees. Figure J presents a breakdown by academic area of both the career-technical and pre-baccalaureate associate degrees.

Figure K presents a distribution by academic area of the total 6,342 bachelor's degrees awarded by the public institutions. Education and business and management accounted for over 47 per cent of the total bachelor's degrees awarded by the public colleges and universities. For a breakdown of the first professional, master's and doctor's degree levels for each academic area, see Figure E on Page 6.

Figure L on the following page graphically presents by degree level the total degrees awarded by each of the 15 West Virginia public institutions of higher education. The community colleges and graduate college are new institutions established within the past five years by the Board of Regents. It is expected that these institutions will have a significant increase in the number of degrees conferred for the next several years, since they have experienced a dramatic enrollment growth.

EXPLANATION OF TABLES

The report is divided into three basic sections: All Institutions, Public Institutions, and Private Institutions. The first section presents statewide analyses, while Sections II and III present analyses of the public and private institutions respectively.

Section I is composed of three tables. Table 1 summarizes all degrees conferred by institutions of higher education in West Virginia by level of degree, control of institution, and by sex of the student. Table 2 presents an analysis of all the degrees conferred by level of degree, sex of student, and control and level of the institution. Total degrees conferred are summarized in Table 3 by level of degree, control of institution, and by academic area of study.

Sections II and III are composed of similar tables. Tables 4 (Section II) and 7 (Section III) respectively present a summary of the total degrees conferred by each public and private West Virginia institution of higher education. The data are reported by level of degree and sex of student.

Tables 5 (Section II) and 8 (Section III) are analyses of the number of different degree programs offered and the total degrees conferred by each West Virginia public and private institution by academic area of study and level of degree. The total degrees conferred in each degree program offered by each West Virginia public and private institution by academic area of study, sex of student, and by level of degree are reported in Tables 6 (Section II) and 9 (Section III) respectively.

In Tables 5, 6, 8, and 9 the associate degree level is not subdivided into career-technical and pre-baccalaureate degree level classifications. The career-technical programs and degrees are reported under the last six academic areas of study, all of which end in the word technologies; while the pre-baccalaureate degrees and programs are reported under the first 22 academic areas of study ranging from Agriculture and Natural Resources to Interdisciplinary Studies.

When zero or few degrees are reported for an individual degree program the reader should not prematurely conclude that the program is an unproductive one. All of the degree programs offered by each institution are listed. Some are new programs that have not been operative for a sufficient length of time for any degrees to have been produced, while some programs are presently being phased out and, therefore, are naturally producing few degrees. The Appendix presents the definitions of degree levels used in this report.
